

CECA at CPHI, the worldwide pharmaceutical ingredients exhibition in Franckfurt, from September 30<sup>th</sup> to October 2<sup>nd</sup> 2008.

Paris,  
September 4<sup>th</sup> 2008

The Activated carbon, Filter aids and Functional Mineral division will be part of this event. The team will be present from September 30 to October 2<sup>nd</sup> 2008 in Franckfurt (Germany) - ARKEMA booth (Hall 3, Booth D18) -to present its range of products and show it know-how.

Messe Frankfurt GmbH  
Ludwig-Erhard-Anlage 1  
Germany

CPHI Worldwide 2008  
Messe Frankfurt, Germany  
30 September - 2 October 2008  
Welcome to the source of new growth opportunities

CECA added value is to offer a full range of products for Purification, Decolorization and Clarification of pharmaceuticals and pharmaceutical intermediates.

**The activated carbon range of products.**

The most striking advantages of the activated carbons of the Acticarbon® range are their efficiency and their purity. Their high level of efficiency allows to improve the yield of your decolorization and purification steps; losses of active principle are thus minimized. Thanks to their level of purity, Washed Acticarbon products are extremely suitable for the treatment of injectable solutions (contrast media, antibiotics,...). The filterability of these products also very often helps to significantly improve productivity.

**The diatomaceous earth and Perlites range of products :**

Diatomaceous earths and perlites of the Clarcel range are used in filtration of pharmaceutical products (antibiotics, vitamins, insulin,...) and also as functional additives, for instance in dental prints and cosmetology.

*Find out more about CECA ([www.cecachemicals.com](http://www.cecachemicals.com)): CECA, a subsidiary of the ARKEMA Group, is a world player in Specialty Chemicals. CECA constantly strives to improve its customers' performance by creating and developing adsorbents, chemical intermediates, and additives. CECA operates an extensive network of industrial facilities in Europe, together with two research centres (GRL and CRR) dedicated to Customer innovation.*
